## CDSP Summer 2022 Intensive: COVID-19 Safety Protocols (as of 4/2/2022)

### Summary:

- **CDSP is a vaccinated community. All individuals who seek to be on campus must provide proof of vaccination prior to arriving on campus.** (See details below.)
- **Residential and Low-Residential students who document proof of being fully vaccinated** may participate in in-person classes and in-person formation and social functions, **with masks**. “Fully vaccinated” is defined as having both injections of the Pfizer or Moderna vaccines, or one of the Johnson & Johnson vaccine, **plus a booster injection**. Any proof of vaccination presented to the school will be treated as confidential with access restricted to necessary administrative personnel.
- **The usage of N95 or KN95 masks are required for participating in on campus events.**
- **All students participating in the Summer Intensive must upload their vaccination proof into SONIS. Students may not begin classes or participate in any activities without this proof of vaccination, including the booster.**
- **Partners and spouses of students** living in CDSP campus housing or participating in CDSP community or sponsored events must provide proof of vaccination to the Dean of Students. If a student’s partner or spouse cannot or chooses not to receive the COVID-19 vaccination, they may not participate in in-person social and formation functions unless masks and social distancing for all attendees have been pre-arranged.
- **Any individual who is travelling to the Bay Area for the Summer Intensive must follow the new testing protocols set forth below.**
- If any member of the CDSP community feels unwell, or develops symptoms of illness, they should remain home, take a rapid COVID test, and contact a medical professional, staying quarantined until symptoms are defined.

### Detail and Policies by Area:

#### **Testing**

- All individuals who travel outside the Bay Area and return to Berkeley will be required to follow this testing protocol until further notice.
- For Students
  - **All students who have travelled to the Bay Area**, upon their arrival, must take a rapid COVID antigen test. After taking the test, the student should: remain isolated until the result is known. If the test is positive, the student should: remain in isolation, contact a medical professional for guidance, and

notify the Dean of Students and their faculty advisor. If the test result is negative, the student may cease isolation.

- For spouses and partners returning to the Bay Area, these same protocols must be followed.
- **For Faculty and Staff**
  - **Any new faculty and staff must provide proof of being fully vaccinated prior to the beginning of the Summer Intensive.** Please forward that proof to the Vice President and Chief Operating Officer.
  - Any faculty or staff who have travelled outside the Bay Area must isolate and take a test upon their return. If the test is positive for COVID-19, the individual should: remain isolated, contact a medical professional for guidance, and notify the Vice President and Chief Operating Officer. If the test result is negative, the individual may cease isolation.
- **For Adjunct Faculty, Classroom and other Guests**
  - Proof of vaccination, **including a booster shot**, must be presented to the Vice President and Chief Operating Officer prior to arrival on campus.
  - For any individual who travelled outside the Bay Area, a test must be taken within 24 to 48 hours of the planned arrival on campus. If the test is positive the individual should not come to campus.

### **Housing**

- Although all students are expected to be vaccinated, N95 or KN95 masks and social distancing will be required in all public spaces.
- No unvaccinated guests will be allowed on campus, or in any student housing or grounds.

### **Classrooms**

- N95 or KN95 Masks and social distancing will be required.
- Cross registered students must provide proof of vaccination, **including boosters**, either to their home school or direct to CDSP if their home school is not requiring proof of vaccination.
- Unclassified students and community auditors must provide proof of vaccination including boosters to enroll.
- No guests will be allowed in the classroom without proof of vaccination, including boosters.
- HEPA ventilators have been installed in each classroom and operate according to a 30- minute on/off cycle.

### **Worship**

- Only fully vaccinated individuals (with booster shots) will be allowed to participate in or attend in-person worship.
- N95 or KN95 Masks are required during worship and physical distancing is encouraged.

### **Meals**

- Only vaccinated (with booster shots) students, faculty, staff, and family members may attend (exception: children not eligible for vaccination, may attend and follow the mask requirement only). N95 or KN95 masks must be worn when not actively

eating or drinking. Physical distancing or eating in small groups is encouraged, utilizing outdoor spaces when possible.

- Chef Cynthia and her entire staff are required to be fully vaccinated to be allowed on the premises and serve meals.

### Offices

- All staff and faculty are required to be fully vaccinated, including boosters. N95 or KN95 masks are required in the hallways and in all indoor public areas. Masks may be removed in private offices when the office door is closed. Physical distancing will not be mandated but is encouraged.
- All building doors will be locked to ensure only members of the CDSP community enter Parsons or other buildings.
  - Students will be given the code to the Denniston sliding door (lower level) and a fob to enter the 2<sup>nd</sup> floor of Parsons.
  - Faculty and staff will be required to meet guests in St. Margaret's Courtyard after the guests check-in with the Welcome Center. **No guests are permitted without proof of vaccination, including boosters.**
- Permission to work from home will be decided on an individual basis, with staff coordinating with their supervisor(s) for permission and scheduling.
- The vaccination status of employees of CDSP's cleaning company will be coordinated through the Operations Department. If any of their employees are not vaccinated, they will only be permitted onsite when CDSP staff and faculty are not present.
- Independent Contractors will perform work when the building is empty, whenever possible.
- HEPA air filters have been placed in each office, and should be operated on a 30 minute on/off cycle whenever the office is occupied.
- The Shires building is off-limits except for use of the elevator for ADA purposes or to attend to maintenance tasks. Masks will be required to enter Shires.

KN95 masks are available in Denniston Hall on the table to right of the sliding glass doors after entering the foyer.
